GUIDELINES FOR ASEAN COLLABORATIVE RESEARCH GRANTS

Background

The Annual CamTESOL Conference Series plays an important role in highlighting research into the teaching and learning of the English language in the region and around the world. Many research-based papers, after being presented at the CamTESOL Conference, are submitted for consideration for publication in *Language Education in Asia* (LEiA), an internationally peer-reviewed online journal, inspired by the Annual CamTESOL Conference Series.

IDP logistically and financially supports CamTESOL and conference-related activities. Efforts are being made to generate interest in research on the teaching of English in the region through various initiatives, including hosting a Regional Research Symposium and, in particular, providing research grants to qualifying ELT practitioners/researchers from ASEAN countries. The ASEAN Collaborative research grants started in 2015.
